Dear Parent/Carer

S2 pupils will shortly be starting the process of choosing their subject options for S3+4. The move into S3 is a key transition for pupils, and we want to ensure all pupils are supported to make informed subject choices linked to their aptitudes, interests and skills as well as their progression pathways and intended post-school destination.

Pupils will continue to follow a broad curriculum under the curricular areas of: Languages, Mathematics, Health and Wellbeing, Religious and Moral Education, Sciences, Social Studies, Technologies and Expressive Arts. All pupils will study English, Maths and core subjects, and choose a further 5 subjects.

The S2 options booklet is available [here](#) and contains information regarding the timeline for the options process, support available and information relating to the subjects which may be available for study in S3+4. I would encourage you to discuss this information with your child.

The options process will begin with scoping options on Friday 9th February. The scoping options are for pupils to provide an early indication of what their subject choices may be and will inform the structure of the S2 options form. **These options are not final, so pupils should not be concerned if their choices change afterwards.**

If you have any questions regarding the options process please contact your child's Pupil Support teacher.

Gordon Menzies
