Project Leader Skills & Pathways

What is the SCQF?

- It's Scotland's lifelong learning framework – designed to help people of all ages and circumstances to access appropriate education and training over their lifetime, so as to fulfil their personal, social and economic potential
- It helps people understand qualifications and how they relate/compare to one another
- It helps people plan their learning and provides a mechanism for making better informed choices
- It recognises people's learning and gives them credit for what they've achieved. This means that it can support credit transfer

THE SCOTTISH CREDIT AND QUALIFICATIONS FRAMEWORK

This Framework diagram has been produced to show the mainstream Scottish qualifications already credit rated by SQA and HEIs. However, there are a diverse number of learning programmes on the Framework, which, due to the limitations of this format, cannot be represented here. For more information, please visit the SCQF website at www.scqf.org.uk to view the interactive version of the Framework or search the Database.

SCOTTISH NATIONAL QUALIFICATIONS - SCQF LEVELS AND TIMELINES

This table shows how current and old qualifications relate to one another in terms of their SCQF level. The SCQF level of a qualification provides a way of comparing how demanding or difficult the learning involved in achieving a qualification is. This table can be used by anybody with a need to understand National Qualifications (normally awarded at school), for example employers when recruiting. More information on the SCQF can be found on our website (www.scqf.org.uk). More information on current qualifications in the table can be found by visiting the SQA website (www.sqa.org.uk/cfe).

2001: Creation of Scottish Credit and Qualifications Framework. All levels are approximate for qualifications delivered prior to this date.
